PROFESSIONAL SUMMARY

Entry-level Java Developer with practical experience building database-driven applications using Core Java, JDBC, SQL, and PostgreSQL. Strong understanding of Object-Oriented Programming, Collections, Exception Handling, and layered architecture (DAO/DTO). Passionate about writing clean, maintainable code and solving real-world business problems. Seeking an opportunity to contribute and grow in a leading technology organization.

CORE COMPETENCIES

Languages	Core Java, SQL, HTML
Database	PostgreSQL, JDBC, RDBMS
Java Concepts	OOP, Collections, Exception Handling
Frameworks	Hibernate (Basics)
Tools	Git, GitHub, Eclipse, VS Code
OS	Linux basics

PROFESSIONAL PROJECTS

Campus Placement System | Tech: Core Java, JDBC, PostgreSQL

- Developed modules for student management, company management, placement drives, job applications, and eligibility verification.
- Implemented DAO/DTO architecture for maintainable code.
- Integrated PostgreSQL with JDBC and applied validation, exception handling, and optimized SQL queries.

Employee Payroll Management System | Tech: Core Java, JDBC, PostgreSQL

- Developed payroll processing and employee management modules.
- Implemented CRUD operations and salary calculations.
- Applied OOP principles including abstraction, inheritance, and polymorphism.

EDUCATION

Qualification	Institute	Result
B.E. Information Technology	Konkan Gyanpeeth College of Engineering	CGPA 7.17
HSC	Model College of Science and Commerce	82.33%
SSC	Model English High School	73.80%

CERTIFICATIONS

• HackerRank SQL (Basic)
• QSpiders Java Course Certification

STRENGTHS

• Problem Solving
• Team Collaboration
• Quick Learner
• Adaptability
• Communication Skills
